Tangled show case
Carolina Wilcke - 2017

Tangled show case

Carolina Wilcke - 2017

Dimensions:
86 x 40 x 158 cm WxDxH

Material:
The frame is made of powder coated solid black steel. 5 mm hardened glass is used for all glass parts. The show case has 3 glass shelves.

With the design of the Tangled show case, Carolina Wilcke expanded the Tangled series that was introduced in the collection one year earlier. Intriguing and elegant are the 2 doors, that are situated on the side of the show case and close by the use of little magnets. This leaves the front pure and simple, an open view on the treasures that will be presented inside this show case. Also the little door openers match perfectly with this elegant, refined design.
